Sailed from Boston Wednesday
October 24th, 1849 bound for
San Francisco California In the
Bark Sirius Capt Smith
with a cargo of ticks and
lumber and hope that God
will protect us on this adventure
this is the beginning of a hard
passage In an old bark leaking
before we left the wharf I truly
believe at the time I agreed
In the said bark I would have
gone to California upon a
raft If any person would have
gone with me to make shure
of the chance I went on board
one month before leaving Boston
and had disagreeable times
we had working to ends
